

# EyeWorld

Boston, Massachusetts

Join your colleagues in Boston for these innovative events at the 2010 ASCRS • ASOA Symposium and Congress.

## Friday, April 9 – EyeWorld Education

### Surgical Innovations to Optimize Glaucoma Treatment

Boston Convention and Exhibition Center – Room 210 (Level 2)

## Saturday, April 10 – EyeWorld Corporate Morning

### Cataract and Refractive Live Surgery in High Definition

Westin Boston Waterfront – Grand Ballroom (adjacent to the Boston Convention and Exhibit Center)

## Saturday, April 10 – EyeWorld Education

### Optimizing Surgical Efficiency Using Torsional Phaco

Boston Convention and Exhibition Center – EyeWorld Theater – Exhibition Hall C (Level 0)

## Sunday, April 11 – EyeWorld Education

### Achieving Optimal Outcomes with Elective IOLs

Boston Convention and Exhibition Center – EyeWorld Theater – Exhibition Hall C (Level 0)

These programs are supported by

CME credit is not available for EyeWorld Education & EyeWorld Corporate Mornings.

**Alcon**<sup>®</sup>

**Saturday, April 10**

## Cataract and Refractive Live Surgery in High Definition

Westin Boston Waterfront – Grand Ballroom  
(adjacent to the Boston Convention & Exhibition Center)  
**Registration: 6:30 – 7:00 AM; Program 7:00 – 9:30 AM**

Live telecast from Main Line Surgery Center in Philadelphia, affiliated with Wills Eye Surgical Network

### Surgical Faculty

**Richard Tipperman, MD – Host Surgeon**  
Ophthalmic Partners of Pennsylvania  
Attending Surgeon  
Wills Eye Institute  
Philadelphia, Pennsylvania

**Ramón Lorente, MD**  
Head of Eye Department  
Complejo Hospitalario  
Orense, Spain

**Richard J. Mackool, MD**  
Director, Mackool Eye Institute and Laser Center  
Senior Attending Surgeon  
The New York Eye and Ear Infirmary  
Clinical Professor, New York University Medical Center  
New York, New York

**Jeewan Singh Titiyal, MD**  
Head Cornea, Cataract & Refractive Surgery  
Centre for Ophthalmic Sciences  
All India Institute of Medical Sciences  
New Delhi, India

### Faculty Panel

**Donald N. Serafano, MD – Moderator**  
Complete Eye Care Associates  
Clinical Associate Professor  
University of Southern California  
Los Alamitos, California

**Rosa Braga-Mele, MD**  
Associate Professor, University of Toronto  
Director of Cataract Unit, Mt. Sinai Hospital  
Director of Research, Kensington Eye Institute  
Toronto, Canada

**Virgilio Centurion, MD**  
IMO – Instituto de Moléstias Oculares  
São Paulo, Brazil

**Bonnie An Henderson, MD**  
Ophthalmic Consultants of Boston  
Assistant Clinical Professor  
Harvard Medical School  
Boston, Massachusetts

**Marlene Moster, MD**  
Professor of Ophthalmology  
Thomas Jefferson School of Medicine  
Attending Surgeon  
Wills Eye Institute  
Philadelphia, Pennsylvania

**Robert H. Osher, MD**  
Professor of Ophthalmology  
University of Cincinnati  
College of Medicine  
Medical Director Emeritus  
Cincinnati, Ohio

### Program Highlights

Participants will have the opportunity to observe live cataract surgeries performed by renowned surgeons from around the world.

Surgical cases will demonstrate techniques on managing difficult cases involving denser lenses and weak zonules using advanced custom lens removal using the INFINITI® Vision System with the new OZil® Intelligent Phaco (IP) technology.

Surgeons will utilize the INTREPID® Micro-Coaxial System with implantation of a fully-useable 6.0 mm optic IOL through a 2.2 mm or 2.4 mm micro-incision and demonstrate the use of the following advanced, aspheric IOL technologies for cataract surgery:

- AcrySof® IQ ReSTOR® IOL +3.0 D, the presbyopia-correcting lens that delivers true performance at all distances.
- AcrySof® IQ Toric IOL, the only approved aspheric toric IOL that delivers precise astigmatic correction with improved image quality.
- AcrySof® IQ IOL, an aspheric, single-piece lens that is proven to improve image quality for cataract patients.

Participants will also learn of the protective benefits of both DisCoVisc® and DuoVisc® Ophthalmic Viscosurgical Devices used in cataract surgery.

The audience will also have the opportunity to observe a video case demonstrating advancements in glaucoma filtration surgery. Participants will learn how to enhance glaucoma surgical outcomes through a predictable procedure, and a controlled outflow of aqueous humor, with the implantation of the Ex-PRESS® mini glaucoma shunt.

(All procedures are dependent upon surgeon discretion.)

## Friday, April 9

### Surgical Innovations to Optimize Glaucoma Treatment

Boston Convention and Exhibition Center –  
Room 210 (Level 2)

6:00 – 6:30 AM Registration (and breakfast)  
6:30 – 7:30 AM Program

Program Chair: Garry P. Condon, MD  
Faculty: Ike K. Ahmed, MD  
Leon W. Herndon, MD  
Thomas W. Samuelson, MD

#### Program Information:

Participants will observe video cases and presentations demonstrating advancements in glaucoma surgery and addressing the current reimbursement situation. Attendees will also have the opportunity to participate in a question and answer period with the panel.

## Saturday, April 10

### Optimizing Surgical Efficiency Using Torsional Phaco

Boston Convention and Exhibition Center —  
EyeWorld Theater, Exhibition Hall C (Level 0)

5:15 – 6:00 PM Registration (and light reception)  
6:00 – 7:00 PM Program

Program Chair: Robert H. Osher, MD  
Faculty: James A. Davison, MD  
Cesar G. Espiritu, MD  
Richard J. Mackool, MD  
Richard B. Packard, MD

#### Program Information:

Participants will have the opportunity see challenging video cases demonstrating surgical techniques with the recognized leader in torsional phacoemulsification and micro-coaxial surgery. Attendees will observe the adaptive control of intelligent phaco for increased followability and reduced post-occlusion surge in real-life cases.

## Sunday, April 11

### Achieving Optimal Outcomes with Elective IOLs

Boston Convention and Exhibition Center –  
EyeWorld Theater, Exhibition Hall C (Level 0)

11:30 AM – 12:00 PM Registration (and lunch)  
12:00 – 1:00 PM Program

Program Chair: Kerry D. Solomon, MD  
Faculty: David F. Chang, MD  
Robert J. Cionni, MD  
Richard J. Mackool, MD

#### Program Information:

Participants will have a better understanding of the advancements in the science, market development, patient selection and techniques for complicated cases from observing didactic and video case presentations.
